WELCOME

Dear Friends, Neighbors and Family,

Thank you for supporting the **3rd annual 11 Day Power Play Community Shift**, which we have aptly named ***The Big Save!*** And welcome back to returning captains and players!! This unique marathon hockey game, played by thousands of players of all ages, genders and levels of play, was born from our 2017 World's Longest Hockey Game played right here in beautiful downtown Buffalo, New York, the world's best hockey town.

To say that the year 2020 has been challenging would be quite an understatement. The 11 Day Power Play has reacted, pivoted, swiveled, and re-reacted to the everchanging rules and regulations dictated by the on-going global pandemic. The good news is that you are reading this program and we have found a way to play hockey and put on the **11 Day Power Play 2020 Big Save**. We simply traded HarborCenter for Riverworks, ice for concrete, a puck for a ball, and some cardboard fans in the stands for our usual wonderful supportive fans.

This event is the culmination of countless hours of passionate work by a dedicated group of people who are determined to make extraordinary change in the fight against cancer. Everyone is affected by cancer, but we don't have to be okay with it! Our family has personally been affected by cancer and, as you will be reminded of daily during ***The Big Save***, ALL cancers matter to us.

We are extremely proud to be living and raising our children in Buffalo, NY. The Buffalo community, including neighbors, friends, family, and local businesses, including our presenting sponsor **Clevermethod**, has been tremendously supportive of The 11 Day Power Play, which will make great change in the fight against cancer in our own backyard by exceeding our goal of \$1,000,000 for cancer research, wellness programs and support services for patients and their families in Western New York.

In 2020, The 11 Day Power Play nonprofit organization continues to support Roswell Park Comprehensive Cancer Center as its primary beneficiary. Make-A-Wish Western New York, Camp Good Days and Oishei Children's Hospital are also deserving beneficiaries based on the important and critical services they provide to cancer patients and their families in our community. We have experienced firsthand how important research at Roswell Park is to our community and we trust that all the great clinicians and researchers will continue to make great progress in finding cures. And due to important research conducted at Roswell Park needed to further understand how coronaviruses such as COVID-19 complicate cancer patients' treatment and daily lives, The 11 Day Power Play donated \$150,000 to Roswell Park to further this research.

The 11 Day Power Play organization is dedicating our 2020 game to the resilient cancer warriors who battle every day; cancer does not stop because of COVID, and neither have we in recognition and support of those who have fought and continue to fight.

Finally, we want to sincerely thank all the team captains, players, organizers, committee members, sponsors, volunteers and the entire Buffalo community for the incredible dedication and support we have received in the last four years to make this event

possible. **Together we have raised over \$5,000,000!**

Anyone can fight cancer...and we, as a group of ordinary people, are an example of how anyone with passion and dedication can invoke positive change. The more we come together as the "City of Good Neighbors" the closer we will be to a world without cancer.

Kindest wishes for your continued health and success,

Mike and Amy Lesakowski

Co-founders of The 11 Day Power Play

CAMP GOOD DAYS,
providing
special times for
kids with cancer
since 1979

Camp Good Days has provided special times for kids and families impacted by cancer since 1979. Our summer camp sessions and year-round events are all at no cost to families, making Camp an easy choice during very difficult times. Please consider joining our Camp family. We rely heavily on the compassion and support of hundreds of local businesses and volunteers.

THANK YOU FOR YOUR SUPPORT

The 11 Day Power Play is more than a record-breaking game of hockey. Donations raised through the event will help drive cutting-edge cancer research at Roswell Park Comprehensive Cancer Center in Buffalo, New York.

Founded in 1898, Roswell Park was the first institution in the world to focus exclusively on cancer research and is currently one of only 50 comprehensive cancer centers in the nation designated by the National Cancer Institute. Roswell Park developed the world's first chemotherapy research program, pioneered the PSA test for prostate cancer screenings and is the birthplace of photodynamic therapy, a treatment now widely used for a variety of cancers.

Today, Roswell Park continues to be a leader in driving innovative cancer research. Experts are making tremendous advancements, and finding a cure is possible in our lifetime. But progress is far outpacing the funding that's available to support these efforts.

Funds raised through The 11 Day Power Play will enable Roswell Park to continue important work that impacts lives across the nation and around the world, including:

- **Personalized Medicine: *Tailoring treatments for individual patients through genetics and immunology***

Breakthroughs in genomics research are changing the way cancer is treated by physicians across the country. Thanks to donations, specialized testing developed at Roswell Park called OmniSeqSM Advance is allowing doctors to make tailored treatment recommendations based on a patient's individual genetic makeup and on their own immune systems.

Roswell Park's Center for Personalized Medicine is currently exploring new diagnostic tests that show promise to further improve patient outcomes and quality of life. By participating in The 11 Day Power Play, you will help bring these next-generation tests to patients who can hopefully benefit from them.

- **Immunotherapy Studies**

Immunotherapy – harnessing the body's immune system to fight cancer – is an exciting, expanding area of scientific research. This method holds the promise of destroying cancer cells more effectively while also preventing recurrence of the disease. In addition to funding new promising immunotherapies, support from The 11 Day Power Play will help advance a number of significant immunotherapy studies led by Roswell Park, including:

- > A randomized controlled clinical study for the lifesaving brain cancer vaccine SurVaxM that could be available at 15 or more different centers nationally in the next year once it is fully funded. Developed at Roswell Park, the vaccine is giving hope to study participants with newly diagnosed glioblastoma – an aggressive and often deadly type of brain tumor.
- > A promising, nationwide ovarian cancer research initiative involving three groundbreaking projects evaluating next-generation immunotherapies.

- **International Collaboration**

Researchers at Roswell Park Cancer Institute are committed to sharing knowledge and resources with leaders around the world. In 2015, Roswell Park representatives accompanied New York Governor Andrew Cuomo on a trip to Cuba. A potentially game-changing agreement was reached to bring their cutting-edge lung cancer vaccine, CIMAvax-EGF, to Roswell Park for U.S. clinical testing.

Funded entirely by donor support, the early phase trials for the vaccine began in January 2017, making Roswell Park the first and only U.S. institution where this groundbreaking immunotherapy is available. Donations to The 11 Day Power Play will allow Roswell Park to advance these studies and explore other applications in other types of cancer, such as colon, head and neck, prostate, breast and pancreatic.

All proceeds from The 11 Day Power Play are managed by the Roswell Park Alliance Foundation, the 501(c)(3) not-for-profit organization that manages all donations to Roswell Park. Learn more at RoswellPark.org.
